

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Avoid contact with skin. Avoid contact with clothing that is not being treated. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment, washwater, or rinsate. See Directions for Use for additional precautions and requirements. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **FIRST AID: IF ON SKIN OR NON-TREATED CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage** Store in a cool, dry area. Always store pesticides in the original container. Store away from food or pet food. **Pesticide Disposal and Container Handling** Nonrefillable container. Do not reuse or refill this container. Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Repels and Kills Ticks and Mosquitoes

Provides Long-lasting Protection!

ACTIVE INGREDIENT:

Permethrin [(3-Phenoxyphenyl) methyl (±) cis-trans-3-(2,2-dichloroethyl) 2,2-dimethylcyclopropanecarboxylate]	0.50%
OTHER INGREDIENTS	99.50%
TOTAL	100.00%

*Cis-trans isomers ratio: Min. 35% (±) cis
and Max. 65% (±) trans

Keep Out of Reach of Children

CAUTION

See Back Panel for Additional
Precautionary Statements

Net Contents: 6 oz (170 g)

Ben's Clothing & Gear (One 6.0 Ounce can) will treat TWO complete outfits!

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **SHAKE WELL BEFORE USING** Do not apply this product to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated. Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. Not for broadcast use on indoor residential surfaces. Do not allow contact with treated surfaces until spray has dried. Do not allow spray to contact food, or water supplies. Avoid contamination of feed and foodstuffs. Remove pets and birds and cover fish aquariums before surface applications. Do not use on humans. Do not allow children or pets to contact treated areas until surfaces are dry. **GENERAL INSTRUCTIONS FOR CLOTHING TREATMENT:** For protection against Ticks (including those which may carry Lyme disease and Rocky Mountain Spotted Fever), chiggers and mosquitoes, apply product as directed below. For further protection, use in conjunction with an insect repellent registered for direct application to the skin, like Ben's 30 Tick and Insect Repellent, and utilize the following primary preventive measures. Avoid areas where the pests are found, wear appropriate protective clothing (light-colored, long-sleeved shirt and long pants tucked into socks) and inspect body daily for ticks. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers.

INITIAL TREATMENT INSTRUCTIONS 1. Select a well-ventilated outdoor area protected from wind and lay out the clothing to be treated (as complete outfit; shirt, trousers and socks). **2.** Hold can upright about 6 to 8 inches from surface of the clothing and spray with a slow sweeping motion to lightly moisten the surface of the fabric. **3.** Continue spraying over entire outfit, until the outer surface of the fabric is moist enough to cause a slight color change or darkening. Pay special attention to socks, trouser cuffs and shirt cuffs. **4.** Turn the clothing over and treat the other side as described in Steps 2 & 3. **5.** Hang the treated clothing and allow to dry for at least 2 hours (4 hours under humid conditions) before wearing. **6.** One can will treat two complete outfit(s). Do not exceed listed spraying times.

INITIAL TREATMENT INSTRUCTIONS ON NETS, TENTS, SLEEPING BAGS AND BACKPACKS: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and lay out article to be treated. Hold can upright about 6 to 8 inches from surface of the article and spray with a slow sweeping motion to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surface of the article is moist enough to cause a light color change or darkening. Turn the article over and treat the other side as described in steps 2 and 3. Hang the treated article and allow to dry for at least 2 hours (4 hours under humid conditions) before using.

RETREATMENT INSTRUCTIONS: This product contains an active ingredient which actually binds to the fabric being treated, providing residual protection which lasts a minimum of two weeks, and holds up through several machine washings. **DO NOT RETREAT CLOTHING MORE THAN ONCE EVERY TWO WEEKS. LAUNDRER CLOTHING AT LEAST ONCE BEFORE RETREATING.** For retreatment, follow instructions for initial treatment.
