As the world leader in rodent control technology, Bell Laboratories continues to provide leadership and stewardship for the rodent control segment of the pest control industry. Our focus is on quality, functionality and innovation.

Whether it is the development and production of innovative rodent control products, being at the forefront of regulatory issues, or developing new revenue opportunities for PMPs (such as providing rodent service for certified organic facilities using Terad3Ag or residential baiting with the T1 Mouse), Bell is committed to supporting the pest control industry.

PROTECTA TAMPER-RESISTANT BAIT STATIONS
From the toughest to most discreet baiting requirements, Bell offers PMPs a choice of versatile, tamper-resistant bait stations and anchoring systems to fit any situation.

UNIQUE RODENTICIDE BAITS
Bell Laboratories’ complete line of rodenticides represents the widest range of rodent baits available anywhere. Bell’s rodenticides contain only the high quality inert ingredients for maximum results. Bell’s overall palatability and efficacy are proven in both laboratory and field settings.

TRAPPER GLUE AND MECHANICAL TRAPS
Bell has applied its vast knowledge of rodent behavior and engineering savvy into the development of an array of mechanical and adhesive trapping alternatives. Bell’s glue formulations are the result of substantial research and testing to determine the ideal combination of immediate grip and stretchable hold, the two factors needed for the highest possible capture rate.

TALPIRID MOLE BAIT AND MOLE TRAP
TALPIRID Mole Bait is a one-of-a-kind product that was developed after years of groundbreaking research. It is the first mole bait of its type designed, developed and scientifically proven to kill moles.

TALPIRID Mole Trap incorporates the latest in mole trap technology. Built to withstand any soil type, it is the ideal complement to a complete TALPIRID program.

MANUFACTURING FACILITY
Bell is a vertically integrated manufacturing company. All of Bell’s products are designed, tested and manufactured in its modern facility in Madison, Wis., which houses its manufacturing operation, offices, and biological and chemical testing laboratories.

ENVIRONMENTAL STEWARDSHIP
Bell continues to work with conservation groups and government agencies around the world to rid ecosystems of invasive species and restore the balance of nature.

<tbody>
<tr>
<td>PROTECTA® EVO® CIRCUIT</td>
<td>Ideal for sensitive accounts, the Circuit includes side connectors that, when attached, make the station appear as an electrical box.</td>
<td>• Side connectors make station simulate an electrical box • Single lock and removable tray for fast and easy servicing • Can be used horizontally or vertically</td>
</tr>
<tr>
<td>PROTECTA® EVO® AMBUSH</td>
<td>Low-profile station that accommodates the T-Rex rat snap trap for times when trapping is a necessary part of the IPM program.</td>
<td>• Single lock and removable tray for fast and easy servicing • Compatible with the Sidekick Load-N-Lock system</td>
</tr>
<tr>
<td>PROTECTA® EVO® MOUSE</td>
<td>Versatile mouse station designed with a single locking mechanism to provide quick servicing, combined with increased bait storage capabilities.</td>
<td>• Fits in corners and tight spaces • Holds 2 – 1 oz. BLOX • Bait rods included for soft bait • Quick servicing features</td>
</tr>
<tr>
<td>PROTECTA® EVO® LANDSCAPE</td>
<td>Tamper-resistant rat station designed to blend in with outdoor landscape.</td>
<td>• Tamper-resistant, opens sideways with EVO key • Full-size insert tray available • Holds 8 – 1 oz. BLOX and a T-Rex rat trap</td>
</tr>
<tr>
<td>PROTECTA® EVO® EXPRESS</td>
<td>Tamper-resistant rat station comes pre-installed with concrete weight and includes a single lock mechanism and removable tray for simple &amp; speedy servicing.</td>
<td>• Securely and professionally anchors bait station with internal weight • Versatile; can hold 2 T-Rex rat traps, 2 Mini-Rex mouse traps or 8 - 1 oz. BLOX • Side-open with single lock</td>
</tr>
<tr>
<td>PROTECTA® LP</td>
<td>Tamper-resistant rat station designed for inside and outside buildings.</td>
<td>• Fits along walls &amp; corners • Horizontal &amp; vertical securing rods • Available in two colors</td>
</tr>
<tr>
<td>PROTECTA® SIDEKICK™</td>
<td>Economical way to upgrade from using non-tamper-resistant bait stations to the security and high quality of a tamper-resistant bait station.</td>
<td>• Tamper-resistant, opens sideways with metal 2-prong key • Holds 8 – 1 oz. BLOX and a T-Rex rat trap • Integrated service card slot</td>
</tr>
<tr>
<td>PROTECTA® LOAD-N-LOCK</td>
<td>Securely anchors bait stations and provides professional appearance compared to patio blocks.</td>
<td>• Made of heavy duty molded plastic • Quick servicing features • Available for Sidekick and Ambush</td>
</tr>
<tr>
<td>PROTECTA® BAIT STATION</td>
<td>Use outdoors and inside commercial and industrial buildings.</td>

CONTRAC® SOFT BAIT

PROVEN PERFORMANCE IN ANY SETTING

BELL’S MOST EXTENSIVELY RESEARCHED AND TESTED RODENTICIDE EVER

- Comprehensive field testing: Urban & Rural, Commercial & Residential
- Proven lab testing
- Manufacturing process ensures contact with sachet paper, maximizing bait acceptance
- Outstanding preservative package

WON’T FREEZE, MOLD OR MELT
Proven Rodent Acceptance

- Contains the single-feeding anticoagulant Bromadiolone
- Formulated with an optimal blend of ingredients and low wax content for high palatability and weatherability
- Ideal choice for all-around control

Identify, Track & Eliminate Rodents

- Contains the single-feeding anticoagulant Bromadiolone
- Lumitrack makes rodent droppings illuminate under black or UV light for easy detection
- Aids in the tracking of entry points, pathways and nesting areas to improve your baiting strategy and strengthen your IPM program while controlling the rodent population in the process
Non-Toxic Monitoring & Tracking Bait

- Contains no active ingredient
- Lumitrack makes rodent droppings illuminate under black or UV light for easy detection
- Aids in the tracking of entry points, pathways and nesting areas to improve your baiting strategy and strengthen your IPM program

Burrow Bait for Voles & More
Restricted Use Product

- MEADOW & PINE VOLES: Approved for use in industrial, commercial & residential areas including homes, lawns, golf courses and more. Burrow Baiting & Ground Broadcast Baiting applications allowed, as listed on the label. Expanded sites when used with a bait station
- CALIFORNIA GROUND SQUIRRELS: Approved for use in Bait stations or spot baiting application in industrial, commercial and residential areas, including homes, lawns and more
- Approved for use against Norway Rats, Roof Rats and House Mice
- Contains Diphacinone, a proven first-generation anticoagulant active ingredient

PACKAGING:
- 12 lb. pail and 50 lb. bulk bag
- Not for sale in California or Idaho.

Vitamin D₃ for Structural Control

- Acute rodenticide with proven palatability and efficacy
- Excellent weatherability and high melting point up to 200°F

Vitamin D₃ for Organic Production

- First and only rodenticide listed by the Organic Materials Review Institute (OMRI) and registered by the Environmental Protection Agency (EPA) for use in organic production
- For Organic Production
- Active ingredient, Vitamin D₃, is on the USDA’s National Organic Program list
## Fast Acting Active Ingredient

## TALPIRID

### Product Description

- Contains the powerful active ingredient Zinc Phosphide – kills more quickly than anticoagulant baits
- Formulated to compete with natural food sources
- Restrictions and regulations apply

### Product Information

- **Product Code:** M07150
- **Dimensions:** 4 3/4 x 5/16 x 1/4
- **Packaging:** 2 trays of 10 worms in box – 5 boxes per case
- **EPA Registration Number:** 12455-101
**LIQUA-TOX II**

**Liquid Concentrate**

- Contains the sodium salt of the multiple-feeding anticoagulant Diphacinone
- Best choice when food is readily available but water is limited
- 8 individual pouches packed in a zip bag for easy distribution

**PACKAGING:**

8 x 1.68 oz. pouches x 4 – EPA REG. NO. 12455-61

**LIQUID CONCENTRATE**

---

**T1 MOUSE™ & T1 RAT™**

**Bromethalin BLOX in a Tamper-Resistant Disposable Station**

- Kills rats and mice in two or more days after consuming a toxic dose
- Dog & child tamper-resistant
- Station meets the highest level of tamper resistance, based on EPA test protocols
- Disposable station can be left at a residential account and then discarded once bait has been consumed
- Can be used indoors or out

**PACKAGING:**

Pre-loaded station –
T1 Mouse: EPA REG. NO. 12455-121
T1 Rat: EPA REG. NO. 12455-122

T1 Rat
1 Station/Cnt., 8 Ctn./case | DR0811 | 7 1/2 x 5 1/2 x 3
**EXPRESS**
- Weighted station with removable tray for easy cleaning
- Single locking mechanism for quick servicing
- Ramped entry keeps kids and non-target animals from reaching bait/traps
- Can hold 2 T-Rex rat traps, 2 Mini-Rex mouse traps or 4 vertical bait rods
- Dog & child tamper-resistant

**PACKAGING:**
Each EVO Express includes station, brick, tray, securing rods & service card. Ships in pallet quantities.
*Available in black and gray*

**PRODUCTS & DIMENSIONS (in)**
- Protecta Evo Express Black: EV8001 12 x 10 x 6 1/4
- Protecta Evo Express Black (2/case): EV8400 12 x 10 x 6 1/4
- Protecta Evo Express Gray: EV8801 12 x 10 x 6 1/4

---

**AMBUSH**
- Single locking mechanism for quick servicing
- Removable tray for easy cleaning
- Low-profile but accommodates TRAPPER T-Rex Rat Trap
- Compatible with Sidekick Load-N-Lock system
- Dog & child tamper-resistant

**PACKAGING:**
6 stations per case with bait securing rods, tray and service card

**PRODUCT & DIMENSIONS (in)**
- Protecta Evo Ambush: EA2000 8 1/2 x 10 1/4 x 4 1/4

---

**CIRCUIT**
- Built-in disguise includes connectors to make station simulate an electrical box; great for sensitive accounts
- Can be used horizontally or vertically
- Single locking mechanism for quick servicing
- Removable tray for easy cleaning
- Dog & child tamper-resistant

**PACKAGING:**
6 stations per case with plastic connectors, bait securing rods (horizontal & vertical), tray and service card

**PRODUCT & DIMENSIONS (in)**
- Protecta Evo Circuit Gray: EC8806 9 x 9 1/2 x 4
MOUSE

- Single locking mechanism for quick servicing
- Holds twice as many BLOX as RTU so more mice can feed from station
- Works with either BLOX bait or Soft Bait
- Fits in corners, under pallets and along rodent runways
- Internal teeth clamp on soft bait paper to minimize paper displacement

**T-REX**
- Powerful rat snap trap can be set by hand or foot
- Patented interlocking teeth for maximum strength & effectiveness
- Removable bait cup makes servicing easy
- Patented design allows trap to be secured to pipes
- Compatible with many Bell rat-sized stations

**MINI-REX**
- Use alone or in PROTECTA bait stations
- Removable cup incorporated
- Excellent trigger sensitivity

**PROVOKE**

**RAT or MOUSE TRAP GEL**
- Specially formulated trap gel for rats or mice
- Improves capture rate with any trap
- Non-toxic and hypoallergenic
- Won’t stain clothing or fabrics
**Rodent Baiters**

- Economical way to place bait where tamper resistance is not required
- Holds liquid, dry bait and tracking powder
- Made of black polystyrene — lightweight, yet sturdy

- TM2601 8 1/4 x 3 1/2 x 1 1/2

**PACKAGING:** 100 per carton, 12 cartons per case
CHOOSING THE RIGHT BAIT

The level of rodent activity determines the appropriate bait for the job. It may be a new account with a heavy infestation, an existing account with persistent rodent activity, or a preventative program set up to monitor and keep rodents out. Proper selection and application of these baits will determine the success of the Rodent Control Program.

**CONTRAC®**

WITH **LUMITRACK®**

**CONTRAC®**

**SOFT BAIT**

**ACTIVE:** Bromadiolone

**TYPE:** Second generation anticoagulant

**GENERAL ATTRIBUTES:**
- Rodents can ingest a toxic dose in a single feeding
- Rodents may continue to consume the bait even after ingesting a toxic dose

**ANTIDOTE**: Vitamin K1 treatment

**WHEN TO USE:**
- For heavy infestations where there is strong food competition
- To control persistent infestations
- For occasional invaders to ensure they ingest a lethal dose in a single feeding

**FINAL®**

**FORMUS®**

**ACTIVE:** Brodifacoum

**TYPE:** Second generation anticoagulant

**GENERAL ATTRIBUTES:**
- Rodents can ingest a lethal dose in a single feeding
- Rodents may continue to consume the bait even after ingesting a toxic dose
- Higher toxicity than CONTRAC® baits

**ANTIDOTE**: Vitamin K1 treatment

**WHEN TO USE:**
- For heavy infestations where there is strong food competition
- To control persistent infestations
**FASTRAC®**

**TYPE:** Acute

**ANTIDOTE**: There is no direct antidote; however, there are treatment programs available for sub-lethal ingestions

**GENERAL ATTRIBUTES:**
- Norway rats, roof rats, and house mice cease feeding after consuming a toxic dose
- Bait quantity may be about one-third that used with anticoagulants
- Kills faster than anticoagulants

**WHEN TO USE:**
- Ideal for new accounts
- Knocks the population down to a manageable level

---

**DITRAC® LIQUA-TOX®II**

**TYPE:** First generation anticoagulant

**ANTIDOTE**: Vitamin K₁ treatment

**GENERAL ATTRIBUTES:**
- Multiple feedings typically required for the anticoagulant to be effective
- Generally more bait needs to be consumed to reach a toxic dose
- Less toxic than second generation products

**WHEN TO USE:**
- Great for maintaining control once population is restrained
- For monitoring any new activity

---

**TERAD₃® TERAD₃®AG**

**ACTIVE:** Vitamin D₃

**TYPE:** Acute

**ANTIDOTE**: There is no direct antidote; however, there are treatment programs available for sub-lethal ingestions

**GENERAL ATTRIBUTES:**
- OMRI listed [Terad₃,Ag]
- First EPA registered rodenticide for use in organic production
- Kills anticoagulant-resistant Norway rats

**WHEN TO USE:**
- For use in organic production [Terad₃,Ag] and structural control [Terad₃]

---

**ZP® ZP®AG**

**ACTIVE:** Zinc Phosphide

**TYPE:** Acute

**ANTIDOTE**: There is no direct antidote; however, there are treatment programs available for sub-lethal ingestions

**GENERAL ATTRIBUTES:**
- Restricted use product
- Proven palatability

**WHEN TO USE:**
- For economical cleanout of rodent infestations
- Use tracking powder when competing with natural food sources
