

# OutLAST Pro™

## foaming agent

### Long Lasting Foaming Agent

OutLAST Pro is a broad-use, proprietary adjuvant that can be used for foaming termiticides, insecticides and cleaning products, as well as foam marking. OutLAST Pro produces thick, long lasting foam with less drainage of liquid from the foam so you can outlast the competition.

- Longer lasting foam means better results
- Foam lasts 2-3 times longer & sticks better compared to other foaming agents
- Lower surfactant load compared to other foaming agents leaves less residue in the treated area and the environment
- Compatible with pesticides and cleaning agents
- Caution Signal word
- Exempt from California's Prop 65 list of known carcinogens
- Rates 1/2-8 oz per gallon.

#### Product Codes:

OPFA016: 16 fl oz squeeze-n-measure bottle

OPFA128: 1 gallon jug
